WOOD FLOORING AND PAVING:—

Ebner, Jos. F., 150 Old Street, St. Luke's, E.C.

Aspinall's Enamels

The following Enamels are made especially to fill all the requirements of high class decorative work:

"O" White Enamel

(FOR INSIDE USE).

In Natural White for tinting with tube colour stainers if required. Can be supplied in Blue Shade White to order.

If properly applied you cannot fail to produce satisfactory results with this material.

Suitable for all Interior Work of Houses, Public Buildings, Railway Carriages, Ships' Saloons, &c., &c.

"Indian" White Enamel

(FOR OUTSIDE USE).

A thoroughly reliable enamel for Shop Fronts, Street Doors, Railway Carriages, Roofs, Ships' Deck Houses, Rails, &c.

Can be Tinted with tube colour stainers, or made in nearly all colours to order.

"Flat" Enamel

(FOR INSIDE USE).

This material produces a perfectly dead flat surface, being also very durable and hard-wearing.

For Drawing-room Doors, an artistic effect can be obtained by using "O" White for stiles and panels flatted in with "Flat" Enamel.

Genuine Snow White Zinc Paint in Oil.

WE RECOMMEND THIS FOR PRIMING COATS, AS GIVING BETTER RESULTS THAN A DEAD PAINT.

For all Painting Work Aspinall's Snow White Zinc Paint can be used in preference to lead, it being non-poisonous, greater spread and elasticity, and the colour is not affected by chemical action, as is the case with lead.

Samples, Colour Cards, and full particulars from

GLASS WORKS, NEAR BIRMINGHAM.

Manufacturers of all descriptions of Window Glass, Sheet, Patent Plate, Rolled Plate, Figured Rolled, Cathedral, Muffled, and Coloured Glass.

Optical Glass and Microscopical Thin Glass.

FIGURED ROLLED,
PATTERN **C.**
Registered No. 287595.

Chance's Figured Rolled Glass is made by a Patent Process, producing the most beautiful and highly finished glass of the kind. It is made in a considerable variety of patterns, and in both White and Tinted Glass. The White is of exceptional purity of colour, which, together with the perfect impression of the pattern in relief and the brightness of the reverse surface produces an effect of great brilliancy.

TERRA-COTTA

IN RED, PINK, AND BUFF.

WILDERNESS WORKS, WREXHAM.

THE Wilderness Terra-Cotta is an honest and beautiful material for building, in substance indestructible, with a hard surface, impervious to moisture, and unaffected by acids or atmospheric impurities. All the Wilderness Terra-Cottas are burnt their natural colours. No colouring matter is used in manufacture, nor are the goods "dipped" or "washed." The surface is that left by the tool, and the colour that made by the direct action of the fire on the oxides of iron contained in the clay. The Works are fitted up with the newest and best machinery for expeditious and large production, and are connected with the Great Western Railway Main Line.

Architects are invited to visit the Works, which are situated one mile and a half from Wrexham Station.

Samples will be sent on application.

Among other buildings, lately erected or now in course of erection, constructed wholly or in part of the Wilderness Terra-Cotta, are the following:—

		Architects.

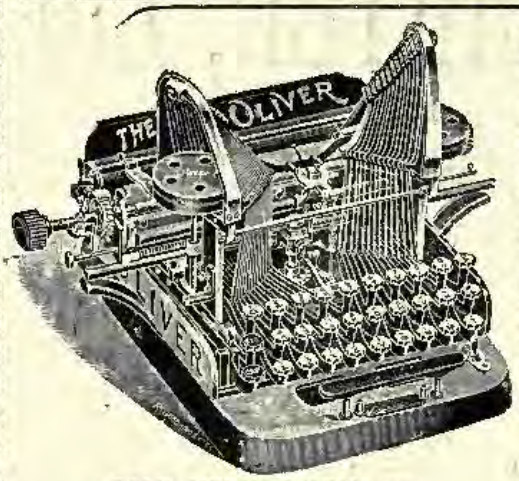
INTERESTED IN BUILDING CONSTRUCTION

Sent Free upon Architects' application.

CALEDONIAN WORKS, **STRATFORD,** LONDON, ENG.

As Old as the Pyramids.



PROBABLY the most important point in the construction of a typewriter is the type-bar itself. In this point most machines fail when put to the test. Many of them have a long single bar of several pieces with the type at the end. Such a bar is uncertain and wobbling in its action, and must strike through a guide of some sort to preserve the alignment of the letters. Furthermore, the type, if struck accidentally against each other, are quite easily thrown off their feet and make a faulty impression. The construction of the **OLIVER** type-bar is radically different and far superior mechanically, although the principles involved are as "old as the hills." The pyramidical or triangular form of construction (the strongest known) is used. The bar is double and the wide base of the triangle forms a bearing upon which the bar turns. There is no uncertainty about this action. No guide necessary to preserve the alignment.

THE TYPE . .
ALWAYS STRIKE ON THEIR FEET.

* * *

GOLD MEDAL, PARIS, 1900.

FREE.—Our Booklet, giving 25 Reasons why you should use THE OLIVER TYPEWRITER, sent gratis to any reader of *Academy Architecture*.

Copying Department:
